

Whip Repair Work Order

We are able to provide limited whip repair services through our leather workshop, including whip fall replacement, replacement of the braided crackers in our signal whips and limited repairs to damaged whips.

Please follow these steps for our whip repair services:

1. Select and purchase the pertinent whip repair service online, or complete and attach an offline order form, including all shipping and billing information or call us at 1-800-324-4934 to place your repair order.

2. Complete this Whip Repair Work Order.

3. Enclose the Work Order with your whip and send to us by insured post or United Parcel. Our mailing address is David Morgan • 11812 N Creek PKY N STE 103 • Bothell WA 98011-8202.

We charge \$35/hour (one hour minimum charge) for repairs, plus handling and any additional insurance for whips valued over \$250. Your credit card will not be charged until we complete the repair.

Whip repairs are usually completed within 30 days of receiving your whip. We will confirm any repairs we expect to take more than 2 hours before proceeding. If your whip is deemed irreparable, we will return it to you charging just our one hour minimum charge plus our standard handling fee and any additional insurance. If we have any questions, or if there is a longer delay, we will contact you.
